SUMMARY

A junior frontend developer eager to grow in the field of web development. I have basic knowledge of HTML, CSS, JavaScript, and Git. I've completed relevant courses and built personal projects. I'm detail-oriented, responsible, and open to learning new technologies and working in a collaborative environment. I'm looking for a junior frontend position where I can apply my skills, contribute to real-world projects, and develop as part of a motivated team.

PROJECT EXPERIENCE

VI-3

December 2024 – March 2025

[Demo](#) [Repository](#)

Developed an adaptive website to showcase doors, windows, and related products, featuring a minimalist design for easy product exploration.

Technologies: Next.js, Next Intl, TypeScript, Tailwind CSS, Canvas, Swiper

Achievements:

- Designed a multilingual setup (Next Intl) to support an international audience.
- Optimized performance and SEO, achieving a PageSpeed Insights score of up to 77 (Mobile) and 95+ (Desktop).

Envent

August 2024 – November 2024

[Demo](#) [Repository](#): Private (available upon request)

Adaptive multilingual website for an HVAC company.

Technologies: Next.js, Next Intl, TypeScript, SCSS, Framer Motion

Achievements:

- Implemented smooth animations with Framer Motion, enhancing the user experience.
- Optimized performance using SSR, resulting in faster page load times.

ITEdu

March 2024 – May 2024

[Demo](#) [Repository](#): Private (available upon request)

A system for monitoring educational programs in the field of "Information Technologies" at Kharkiv Higher Secondary Education.

Technologies: React, Redux, React Hook Form, MUI, Styled Components, Axios

Achievements:

- Standardized data submission processes using React Hook Form, resulting in more consistent and reliable data collection for program analysis.
- Earned a certificate from Kharkiv IT Cluster for successful project completion and teamwork.
